The *all-new* Phoenix from Wave Sport is river kayaking reborn!

Achieving the seemingly impossible - the combination of the fastest hull that doesn't punish those human lapses. Over the past five years, Team Wave Sport has been exhaustively testing and prototyping to bring you a machine that's mean enough to handle the hardest of rapids and creeks - with the speed to fly over any feature its paddler demands.

Paddling the Phoenix down river, you'll be able to take the hard lines knowing your kayak's got your back!
